Barton Celebrates.

With the receipt of the news of Germany's surrender Monday forenoon, Barton let loose. Schools were dismissed and the boys and girls immediately formed into groups and gathered instruments of all kinds with which to make a noise. Some of the tin horns, clackers, whistles and tin pans worked over time. Church bells were rung, whistles blown and immediate action taken to have a bonfire in the evening.

Others set about making an effigy of the Kaiser and by night this military gentleman in his uniform and helmet, iron crosses and all, was ready for parade which he got when R. P. Webster took his auto truck with a load of youngsters and the Kaiser for a tour of Barton and Orleans.

Upon their return the bonfire on cemetery hill was at its hottest and fully 1500 people had gathered. The funeral pyre was 20 feet high and as far through and after parading the conquered monarch of the Huns about the fire several times he was cast in, at which the people hollered, the automobiles blew their honkers, the tin pans, clackers and whistles rent the air.

The band played a number of selections during the evening. Mr. Pierce gave away a goodly supply of fireworks and the crowd went home feeling that the day had been well spent. A free dance in Seaver's hall in the evening closed the festivities of the day, which so far overshadowed the celebration of Thursday, the day of the false alarm, that it is deemed unwise to mention the other event.

EVIDENCE AGAINST COSMOS

Gets Substantial Sums from Clients. Has Famous Record all Over Nation.

State's Attorney Thompson has called together the county grand jurors for the purpose of presenting criminal evidence against Cosmos, the medium, who has operated in Barton, Orleans and other places in this part of Vermont.

It appears that several trusting individuals gave up cold money to this man who was to make them rich.

Thompson has evidence to show that probably all of \$2,000 has been given over to him in the vicinity of Barton and presumably other places where he operated yielded equal sums.

It is understood that the associate of Cosmos, who transacted business for him and worked with him has been apprehended but Cosmos himself has not yet been located.

It appears that this man has operated all over the nation under different names and has a prison record of no mean proportions.
